Legal Engineer with a business-law background. At Delos Intelligence I design, code and deploy AI agents for legal teams while completing my bar training at the Paris Bar School (EFB). Graduate of HEC Paris and Paris 1 Sorbonne in business law. Applying for the Legal Engineer role at Legora in Paris.

PROFESSIONAL EXPERIENCE

Delos Intelligence – Head of Legal & Legal Engineer — Paris, FR
Sovereign AI workspace built on the orchestration of autonomous agents — Jun 2026 – Present

- Shipped and customized AI agents for compliance, contract analysis, legal research, IP analysis and counterfeit-tracking use cases
- Owned the agent's WhatsApp integration end to end (code, testing, evaluation, production release), which powered an ads campaign I co-designed
- Run the company's legal function: customer contracts, terms, DPAs, GDPR and EU AI Act compliance
- Support sales with demos and tender responses, and feed client insights back to the product team

Delta Charge – Product & Go-to-Market Intern — Munich, DE
Tech scale-up electrifying heavy-duty mobility — Mar 2026 – Jun 2026

- Built outbound B2B prospecting from scratch: 10% reply rate on email campaigns, synced to the CRM through Clay, Apollo and MCP
- Assembled a prospect database from Germany's MaStR energy registry, scored on installed PV capacity, kWh output and other metrics

LVMH – Legal Intern — New York City, US
World leader in luxury goods — Aug 2024 – Jan 2025

- Mapped customs-risk exposure across 25+ brands in Python, used by executives to anticipate the impact of the Trump tariffs

Pierstone – Legal Intern — Prague, CZ
Czech law firm specialised in technology — Jul 2022 – Aug 2023

- Analysed the EU Digital Decade regulatory framework: DSA, Data Act, DGA, DORA
- Reviewed pre-contractual documentation and share purchase agreements in M&A transactions
- Conducted a due diligence in Hamburg independently, in support of international litigation

EDUCATION

Paris Bar School (EFB) – Trainee lawyer — Paris, FR
Passed the French bar exam (CRFPA, tax law) — Exp. 2027

HEC Paris & Paris 1 Panthéon-Sorbonne – Master in Management & Master in Business Law — Paris, FR
HEC Grande École programme and Paris 1 Master 2 in Business Law — 2023 – 2026

- Thesis: “The Commercial Lifecycle of Autonomous Agents: From Contracts to Tax”

Sciences Po Paris – Bachelor of Arts — Dijon, FR
Dual degree with Université de Bourgogne (Bachelor of Laws) — Sep 2020 – Jun 2023

- Exchange year at Università Bocconi (finance and accounting)

Lycée français de Prague – French Baccalauréat — Prague, CZ
Annual Czech-language exams (Rozdílové zkoušky) passed with highest honours (1)* — Jun 2020

ACTIVITIES

- European Defense Tech Hackathon, Prague (2025): 2nd place with an autonomous drone prototype pitched to defence experts
- Captain of the HEC rowing team: 5th at the French University Championships (eight, 2024). Czech national runner-up (quad, 2018)

SKILLS

- Languages: French, Czech, English (fluent). German, Italian (basic)
- Tech: Python, PyTorch, SQL, APIs, MCP
- Certifications: Harvard CS50 Python, Harvard CS50 for Lawyers, Google Data Analytics
- Law: tech contracts, GDPR, EU AI Act, DSA, Data Act, DGA, DORA, tax, litigation, M&A
